PUBLISHED BY FRANKLIN P. RICE,
Trustee of the Fund.

1891.

1895112

Publisher's Note.

The list of Dudley Births, Marriages and Deaths comprised in this volume includes all that were found in the Town Books covering the period from the earliest date there recorded to the end of the year 1849. Some additions have been made from other sources, and these are indicated in each instance by proper reference.

All of the records are condensed in print as much as is consistent with intelligibility, accuracy, and completeness of information. Differences in duplicates, and explanatory or other matter which seemed necessary or desirable, appear in brackets.

Marriages and intentions of marriage are printed under the names of both parties, but the full information concerning each person is given only under his or her name. An asterisk after a marriage indicates that the intention was not found recorded, and in many cases this is accounted for by the fact that neither party belonged in Dudley, and consequently publication was made elsewhere.

When places other than Dudley and Massachusetts are named in the original records, they are given in the printed copy.

Emma Laura, d. Charles Jr. and Laura, Jan. 6, 1841.

Esther, d. Samuel and Sarah, Nov. 14, 1763.

The first of these is the *History of the*
County of Devon, which was written by
 John Norden, a learned antiquary and
 historian, who lived in the reign of
 Elizabeth I. and James I. The second
 is the *History of the County of Devon*,
 written by John Norden, a learned
 antiquary and historian, who lived in
 the reign of Elizabeth I. and James I.
 The third is the *History of the County*
of Devon, written by John Norden,
 a learned antiquary and historian, who
 lived in the reign of Elizabeth I. and
 James I. The fourth is the *History*
of the County of Devon, written by
 John Norden, a learned antiquary and
 historian, who lived in the reign of
 Elizabeth I. and James I. The fifth
 is the *History of the County of Devon*,
 written by John Norden, a learned
 antiquary and historian, who lived in
 the reign of Elizabeth I. and James I.
 The sixth is the *History of the County*
of Devon, written by John Norden,
 a learned antiquary and historian, who
 lived in the reign of Elizabeth I. and
 James I. The seventh is the *History*
of the County of Devon, written by
 John Norden, a learned antiquary and
 historian, who lived in the reign of
 Elizabeth I. and James I. The eighth
 is the *History of the County of Devon*,
 written by John Norden, a learned
 antiquary and historian, who lived in
 the reign of Elizabeth I. and James I.
 The ninth is the *History of the County*
of Devon, written by John Norden,
 a learned antiquary and historian, who
 lived in the reign of Elizabeth I. and
 James I. The tenth is the *History*
of the County of Devon, written by
 John Norden, a learned antiquary and
 historian, who lived in the reign of
 Elizabeth I. and James I.

 Merick, s. Collins and Sibel, Aug. 2, 1810.
 Rufus, s. Collins and Sibel, Feb. 13, 1806.

The first of the month was a very cold day, with a heavy frost. The wind was from the north, and the snow was very deep. The children were very happy to see the snow, and they went out to play for hours. The mother was very busy, and she had to stay at home. The father was also busy, and he had to go to work. The children were very tired, and they went to bed early. The mother was very happy to see the snow, and she had to stay at home. The father was also busy, and he had to go to work. The children were very tired, and they went to bed early.

Israel and Betsy Simpson of Charlton, Oct. 20 [1799].

ALGER, Freelove of Smithfield, R.I., and Olney Esten, int. July 10 [1819].

• Intention not recorded.

The first of these is the fact that the
 population of the country has increased
 very rapidly since the year 1800. This
 has been due to a number of causes,
 but the principal one is the increase
 in the number of children born to each
 family. This has been the result of
 a number of factors, including the
 improvement in the health of the
 population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The second of these is the fact that the
 population of the country has become
 more and more concentrated in the
 cities. This has been the result of
 a number of factors, including the
 improvement in the health of the
 population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The third of these is the fact that the
 population of the country has become
 more and more educated. This has
 been the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.

The fourth of these is the fact that the
 population of the country has become
 more and more wealthy. This has
 been the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The fifth of these is the fact that the
 population of the country has become
 more and more civilized. This has
 been the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The sixth of these is the fact that the
 population of the country has become
 more and more Christian. This has
 been the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The seventh of these is the fact that the
 population of the country has become
 more and more free. This has been
 the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.
 The eighth of these is the fact that the
 population of the country has become
 more and more happy. This has been
 the result of a number of factors,
 including the improvement in the health
 of the population, the increase in the
 number of years of life, and the
 improvement in the standard of living.

Nathaniel, s. Richard and Hannah, Dec. 9, 1756.

Phebe, w. Benjamin, Nov. 6, 1802, in 58th y. G.S.I.

The first of these is the fact that the
 government has been unable to secure
 the necessary funds to carry out its
 policy of expansion. This has been
 due to a variety of causes, including
 the high cost of the war and the
 need to maintain a large standing
 army.

The second cause is the fact that the
 government has been unable to secure
 the necessary funds to carry out its
 policy of expansion. This has been
 due to a variety of causes, including
 the high cost of the war and the
 need to maintain a large standing
 army.

The third cause is the fact that the
 government has been unable to secure
 the necessary funds to carry out its
 policy of expansion. This has been
 due to a variety of causes, including
 the high cost of the war and the
 need to maintain a large standing
 army.

The fourth cause is the fact that the
 government has been unable to secure
 the necessary funds to carry out its
 policy of expansion. This has been
 due to a variety of causes, including
 the high cost of the war and the
 need to maintain a large standing
 army.

The fifth cause is the fact that the
 government has been unable to secure
 the necessary funds to carry out its
 policy of expansion. This has been
 due to a variety of causes, including
 the high cost of the war and the
 need to maintain a large standing
 army.

the first of these was the discovery of the
 fact that the earth was not a perfect sphere
 but that it was flattened at the poles and
 bulged at the equator. This discovery was
 made by the French astronomer Jean Picard
 in 1669. He measured the length of a meridian
 arc in France and found that it was shorter
 than it would have been if the earth were a
 perfect sphere. This led him to conclude that
 the earth was flattened at the poles and
 bulged at the equator. This discovery was
 confirmed by other measurements made by
 other astronomers in the following years.

The second of these discoveries was the
 discovery of the fact that the earth was not
 a perfect sphere but that it was flattened at
 the poles and bulged at the equator. This
 discovery was made by the French astronomer
 Jean Picard in 1669. He measured the length
 of a meridian arc in France and found that
 it was shorter than it would have been if
 the earth were a perfect sphere. This led
 him to conclude that the earth was flattened
 at the poles and bulged at the equator. This
 discovery was confirmed by other measurements
 made by other astronomers in the following
 years.

The third of these discoveries was the
 discovery of the fact that the earth was not
 a perfect sphere but that it was flattened at
 the poles and bulged at the equator. This
 discovery was made by the French astronomer
 Jean Picard in 1669. He measured the length
 of a meridian arc in France and found that
 it was shorter than it would have been if
 the earth were a perfect sphere. This led
 him to conclude that the earth was flattened
 at the poles and bulged at the equator. This
 discovery was confirmed by other measurements
